PROJECTS

- **EXPENSE TRACKER APP** (<https://expense-tracker-three-weld.vercel.app/>)

This App helps users create budgets, track expenses, and visualize spending in an intuitive way.

Budget Categories – Users can create budgets (e.g., Kitchen, Home Decoration, Travel) with predefined limits, ensuring better financial planning.

Expense Logging – Add detailed expenses under each budget (e.g., utensils under the Kitchen budget) for accurate tracking.

Seamless UI/UX – Built with **React**, **Next.js**, and **ShadCN** to provide a smooth, modern user experience.

Database Storage – Utilized **MongoDB** to store budget and expense data efficiently, ensuring quick data retrieval and update

- **FEES MANAGEMENT APP** (<https://next-feesapp.vercel.app/>)

Efficient student and fee tracking system that allows admins to manage student records and monitor fee payments on a monthly basis

Student Management – Add, update, enlist, and delist students temporarily to maintain accurate records.

Fee Tracking – Track and update fee payments on a month-wise basis for better financial oversight.

Optimized Performance – Improved query efficiency and reduced load times using **MySQL2**.

Seamless UI/UX – Built with **React.js** for a modern, responsive user experience.

- **TALKPOINT APP** (<https://talk-point-ts.vercel.app/>)

.Built a platform using Next, REACT, HTML and Zustand for users to share and view feedback on cafes, malls, food areas, and educational places. Implemented filtering options based on service and company for enhanced usability

Feedback Sharing – Users can post feedback using hashtags for better organization and searchability.

Advanced Filtering – Filter feedback based on company and service type for easy navigation.

Seamless UI/UX – Built with **Next.js** and **React.js** for a smooth and responsive user experience.

State Management – Managed state using **Zustand** for efficient data handling and quick updates

- **CUETUG APP (<https://cuetugexam.in/>)**

Developed a React application for the CUET preparation students of the institute to help them with notes and mock test mcq based portal

MCQ-Based Portal – Interactive portal with multiple-choice questions for self-assessment and quick feedback.

Syllabus Guidance – Detailed coverage of the CUET syllabus to ensure students stay on track with their preparation.

Study Materials – Offers curated study resources to help students understand key concepts and improve performance.

Seamless UI/UX – Built with React for a modern, responsive, and smooth user experience.
